**SIZE:** 24X36 IN

**FRAME:** WOOD, BROWN N GOLD

## **ABOUT THE ART WORK:**

My works express deep understanding of human entanglements, the pain and suffering they bring to us but at the same time they bring colour and beauty as well in our lives. This amazing fact of complimentary existence of things around us triggers various exciting facts and images in my mind which come out as an expression of my art. This piece of art is a result of constant effort to understand the human entanglements. Simple acceptance of their presence can take one from a state of tying to untying themselves from these entanglements.
